MA-112^{V2.0} AIRPURIFIER

READ AND FOLLOW THESE INSTRUCTIONS
USE UNIT ACCORDING TO INSTRUCTIONS PROVIDED IN THIS MANUAL

KEEP MANUAL FOR FUTURE REFERENCE

MA-112US

IMPORTANT SAFETY INSTRUCTIONS:

IN ORDER TO AVOID ANY DAMAGE TO YOU, OTHERS OR PROPERTY, FOLLOW THE FOLLOWING SAFETY PRECAUTIONS:

IF THE POWER CORD OR UNIT DOES NOT WORK, CONTACT MEDIFY CUSTOMER SERVICE IMMEDIATELY.

READ ALL INSTRUCTIONS BEFORE USING.

WARNING — TO REDUCE THE RISK OF BURNS, FIRE, ELECTRIC SHOCK, OR INJURY TO PERSONS:

- DO NOT touch the power plug with wet hands.
- Turn off the power before cleaning machine.
- DO NOT use the air purifier in rooms where fumigation or pesticide is being used.
- Keep machine dry.
- Only a soft clean cloth is to be used. DO NOT use solvents like Benzene, Alcohol or any flammable cleaners to clean the air purifier.
- This is a 110V unit. It is NOT made for 220V use. Plugging into a 220V outlet will burn out the motor and circuits and the unit will no longer work. Only use with a 110V outlet.
- Do not use air purifier in a room while cooking with oil and grease that may clog the filters
- BEFORE USING THIS PRODUCT, PLEASE MAKE SURE TO REMOVE THE PLASTIC COVERING FROM ALL FILTERS.
- Turn off the power immediately in case of any of the following:
 - Malfunction of any switch
 - Circuit failure
 - Abnormal heating of wires or plugs
 - Any other malfunction

SAVE THESE IMPORTANT INSTRUCTIONS FOR EASY REFERENCE.

UNIQUE FEATURES & SPECIFICATIONS

3-STEP FILTER PURIFICATION SYSTEM

1. FIRST STEP: PRE FILTER

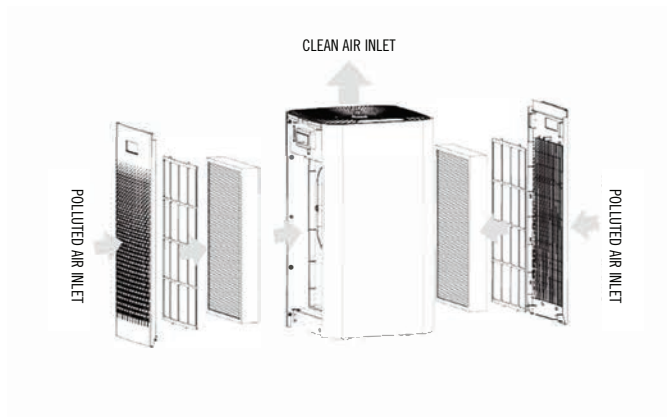

Removes larger particles including hair, fibers, dander, and others.

2. SECOND STEP: TRUE HEPA H13 FILTER

HEPA H13 is a higher grade of TRUE HEPA that can remove 99.9% of particles down to 0.1 microns as well as PM2.5 particles such as smoke, pollen, dust mites and others.

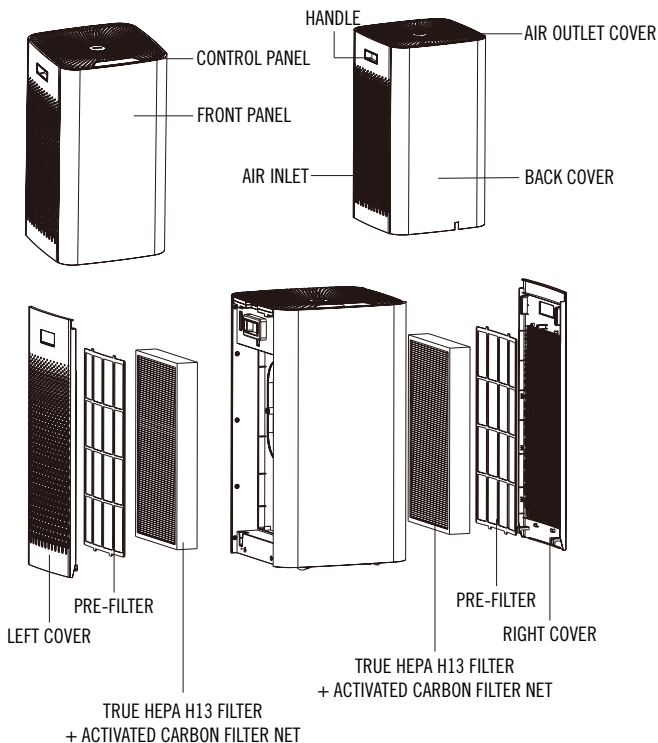

3. THIRD STEP: ACTIVATED CARBON FILTER

Absorbs odors, harmful VOCs, and other toxic substances such as formaldehyde.

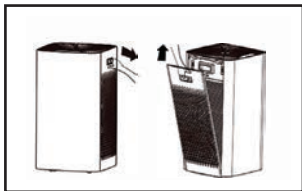

TECHNICAL DATA

- Voltage: 110V AC 60Hz
- Power Rating: 95W
- Noise level: < 70 dB(A)
- Unit dimensions: 28.3"H x 15.7"W x 15.4"D
- Unit weight: 33.5 lbs.

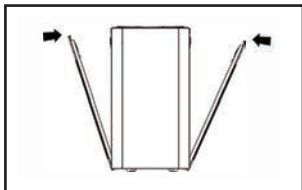

BEFORE USE

DISASSEMBLY AND INSTALLATION METHODS OF SIDE COVERS

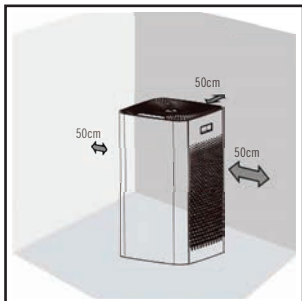

1. Press down on the handles on the sides to remove the side covers. After they open, lift the cover out from the bottom fixed grooves.

2. To reinstall side covers, align at fixed grooves and insert covers into grooves. Covers will snap back automatically.

PLACEMENT OF THE AIR PURIFIER

Do not obstruct air intake or clean air outlet.

To ensure enough ventilation, make sure there is a 20 inch or 50 cm distance between the air inlet and wall or nearby furniture.

INSTALLING THE FILTER SET

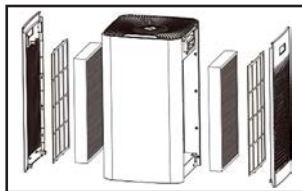

All filters must be used together. Please disassemble filters according to the following instructions. Reinstall the filters accordingly.

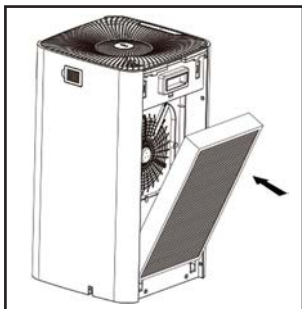

1. Place the machine in a dry location and on a smooth and flat surface.

2. Press down on the handles on the sides to remove the side covers. After they open, lift the cover out from the bottom fixed grooves.

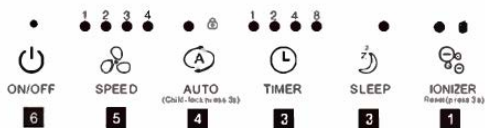

3. Do not disassemble the filters. Filters sets come in one piece for maximum efficiency.

4. Remove any exterior packaging of the filter sets. Place filters back in the air purifiers after the packaging is removed.
5. To reinstall the side covers, align at the fixed grooves and insert the cover into the grooves. The side covers will snap back in automatically.

DESCRIPTION OF CONTROL PANEL FUNCTIONS

1. Ionizer button/ Filter Replacement Reset
2. SLEEP Button
3. TIMER Button (1, 2, 4, 8 hours)
4. Child-lock
5. Fan Speed Button (1, 2, 3, 4)
6. ON/OFF Button

HOW TO USE

PLUG IN

- After plugging it in, the air purifier will beep. Indicator lights will flash 1 time. Then, they will turn off.

TURNING ON THE AIR PURIFIER

- Press the ON/OFF button. The unit will start on speed 1 with indicator light on.
- Press the ON/OFF button again to turn off the unit.

MANUAL ADJUSTMENT OF FAN

- Press the SPEED button to choose air speed: 1, 2, 3 or 4.

SLEEP MODE

- Press the sleep button to enter into sleep mode, all other indicator lights will turn off. The fan speed and noise level will change to the lowest setting.
- After 10 seconds, the sleep indicator light goes out as well.
- Press any key to exit sleep mode.

TIMER

Press the timer button and choose hour options: 1, 2, 4, 8 or no timer.

IONIZER MODE

Press the lonizer button. The unit will sound and the indicator light of the lonizer will be on. Press the lonizer button again and the unit will go out of lonizer mode. The indicator light for the lonizer will be off. When the filter replacement indicator is on, user needs to replace the filter and press the lonizer button for 3 seconds to reset. Then, fan speed indicator light will stop flashing.

CHILD-LOCK BUTTON

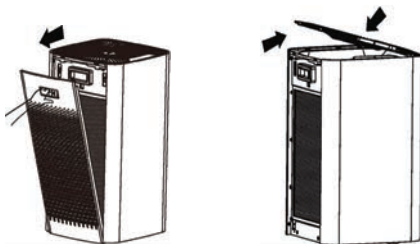

In this mode, none of the function keys can be used or changed (except the child lock function). To turn on the child lock, hold the button down for 3 to 5 seconds. To turn off the child lock function, hold the button down for 30 to 45 seconds.

CLEANING AND MAINTENANCE

Please make sure to pull out the power plug before cleaning the unit. Do not immerse machine in water or any other liquid. Do not use abrasive, corrosive or flammable products to clean any parts of the unit. The unit uses composite filters, so filters cannot be washed.

CLEANING THE AIR PURIFIER

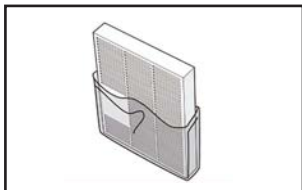

Clean the air purifier regularly to prevent dust accumulation. Use soft and dry clothes to remove dust from the air purifier.

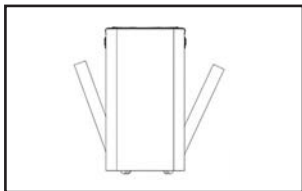

FILTER REPLACEMENT

LIGHT INDICATOR TO REPLACE THE FILTER*

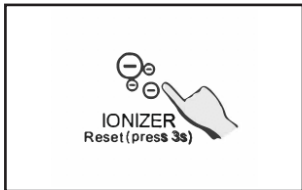

The indicator light will remind users when it is time to change your filter.

1. Remove all existing filters from the unit. Remove all packaging from new filter sets. Then, install the new filters into the unit in the same order as existing filters.

2. Install new filter sets in the unit. Reinstall side covers, as outlined earlier. Side covers will snap back in automatically.

3. When filter replacement is complete, plug in unit and turn on. Press the Ionizer button for 3 seconds to reset the unit.

ATTENTION

Turn off and pull out power plug before replacing the filters. If replacement filter indicator light flashes again after replacement, press the reset button at the side (as shown) until indicator light resets itself.

Or complete the lifetime warranty registration available on our website (preferred method):

www.medifyair.com

LIFETIME WARRANTY

Medify guarantees your Medify Air Purifier to be free of defects in material or workmanship for a lifetime period, provided you have completed and returned your warranty registration to Medify Air within the first 30 days of purchase, and that the filters are replaced with original and genuine Medify Air replacement filters at least once every six (6) months or after 3,000 hours of use. Within the first 30 days, Medify Air will replace the defective unit at no charge to you and reimburse you for any shipping charges. After 30 days, Medify Air's obligation and liability under this Lifetime Warranty is dependent on your use of our genuine filters, purchased on our website or from our authorized resellers, which can be found on our website.

Our Lifetime Warranty remains in effect as long as:

1. You submit your warranty registration to Medify Air within 30 days of purchase.
2. You change the filters with genuine and original Medify Air replacement filters at least once every six (6) months or after 3,000 hours of use (whichever comes first).
3. You use a proper power supply based on voltage: 110 V.
4. There is no evidence of tampering, mishandling, neglect, accidental damage, modification, and/or repair done to the Medify Air Purifier by anyone other than authorized Medify Air service personnel.
5. Your air purifier is operated in accordance with the provided instructions.

This Lifetime Warranty is provided by:
