

MFG part #	Description	MSRP	DSTBR
OA600NC	OMNIAIRE 600N with Bulk Filled Carbon Activated Filter – Blue	\$1,195.00	\$825.00
OA600NC	Bulk Filled Carbon Activated Filter for Nitro	\$269.95	\$187.00

**Airflow-** 200 - 600 CFM

**Power Requirements-** 115VAC/60 Hz/2.4 Amp

**Blower-** motorized impeller with thermal overload

**Recessed Controls-** variable speed control; red power indicator light; amber change filter light, GFI protected outlet (8 Amp load max); 12 Amp breaker

**Filtration-** two-stage poly prefilter filter and Bulk Filled Activated 6 inch thick Carbon Filter

**Housing-** polyethylene-rotomolded; 10" inlet/outlet; soft rubber handle

**Size/Weight-**19"W x 19"H x 25"L; 36 lbs.

**Strong Odor Removal and Synthetic Chemical Removal** - Removes VOC's & Odors from Organic Sources, including Smoke, Chemicals, Formaldehyde, Benzene, Combination of VOC's

OmniAire **OA600NC** (Nitro) air scrubber is a compact, portable and removes VOC's & Odors from Organic Sources, including Smoke, Synthetic Chemicals, Formaldehyde, Benzene

OmniAire **OA600NC** housings have clean, impact resistant polyethylene housings designed to last job after job. Our rotationally molded and seamless construction assures that contaminated air will not bypass the filter. Lightweight, the OmniAire **OA600NC** air scrubber unit is only 36 lbs with Activated Carbon filters installed. Molded connections for flex ducting on both intake and discharge sides allow for the convenient direction of air flow intake or exhaust. The ability to securely stack the **OA600NC** up to three high while in operation, and during transportation or storage will save valuable setup time and space.

Daisy-chaining up to three **OA600NC** air scrubbers is possible with an integrated 8 Amp GFI protected outlet, expanding air cleaning capacity to meet your demand. All 600N units come with an integrated 12 amp circuit breaker to prevent overloads from damaging the machine. Units can be ordered in 115V or 220V configuration and are suitable for use worldwide.

Depending on environmental demands, the Nitro offers an assortment of options for prefilters and final filters. The optional OA600N ships with a two-stage primary/secondary filter and HEPA 99.99% filter configuration.

For your safety, the OmniAire Nitro scrubber complies with **OSHA, UL and CSA/IEC** electrical safety requirements.
