5-in-1 Electrostatic Sprayer

The Viruserv Guardian, a 5-in-1 electrostatic sprayer, is a workhorse that will help you disinfect your facilities quickly and effectively!

When using the blower turned off, the mist has a low flow rate of 1 gallon per hour. When the fan is on, it propels the disinfectant up to 18 feet.

The wand offers three different nozzle options. The cone has a low rate of 1.5 gallons per hour. The blue nozzle and double nozzle provide higher flow rates for faster work in non-sensitive areas.

The battery is a 12V, 10Ah Lithium battery. Without liquids, the backpack is 9 pounds. It holds a max of 4 gallons, but we typically only fill it with 1.5 - 2 gallons at a time.

SPECS:

Tank Capacity: 16-liters (4.22 gallons)

Dimensions: 15" x 7.5" x 21.25"

Weight: 9 lbs (dry)

Battery Capacity: 12V, 10Ah Lithium

Charger Input: AC 110

Continuous Working Time: 6 hours

Electrostatic Voltage: 1.5-3 kV

Pressure: 0.15 - 0.4 mpa

Droplet Diameter: ≤ 120 microns

Flow Rates: See Reverse side

Warranty: 1 year

MSRP: \$1,898

PACK LIST:

ITEM	QTY
Reservoir Tank	1
Reservoir Filters	2
Cone Nozzle	1
Shoulder Strap	2
Wand	1
Reservoir Cap	1
Battery Charger	1
Double-Tip Nozzle	1
Blue Nozzle	1
User Manual	1
Extra O Washers	4
Blower Extension	1
Blower Tri-Nozzle	1
Blower	1
